

RESULTS SUBMISSION BY TEXT MESSAGING

*The submission of results is **compulsory** for all home teams in all 2nd, 3rd, and Central League games - and **fines will be issued** for late or non-compliance.*

The MRHA dedicated Text Results Line is **+44 7860 020620**

How to submit a result for your game

The format of the message MUST comply with the following formatting:

You need to find/use the **unique team code** assigned to your team for this season. This comprises 5 numeric digits and a single CAPITAL letter.

Each **specific team code** can be found on the MRHA website mrha.co.uk. Click menu option 'Clubs Plus' - and click to select your club from the drop-down list. Select 'Which Team Plays Where' from the dropdown details on the top right. You should see a list of all teams for your club, with each result code in the last column. You MUST use your **unique team code** when posting your result in the following format.

All characters MUST be in UPPER CASE as is shown - with a SINGLE space between each field - thus making a normal message only 15 characters long. e.g. for a game that had a home win with a score of 3 goals to 1 then the FORMAT is typically **MRHA 99999X 3 1** (with YOUR team code replacing the 99999X)

The score is ALWAYS entered as HOME score first, followed by AWAY score - again a single space between each value. ONLY the FIRST result received from the HOME side will receive a confirmation reply. All further messages will be recorded but otherwise ignored ...

FAILURE TO COMPLY with this format means that although your text message will be received, it will not be recorded/shown and no confirmation will be posted.

A couple of things to note

The results system will only accept results for the latest regular 'Saturday' fixture. There is no provision for accepting results retrospectively, or for games with rearranged dates. All messages to the service are logged - with date, time and mobile number as well as message contents. An acknowledgement text message will only be posted to the FIRST valid submission of any result. Subsequent postings will be logged but ignored.

If the ORIGINATOR receives an acknowledgement message and realises that the entry is in error, he, AND ONLY HE, can submit a further message in the format **MRHA 99999X 3 1 X** to **DELETE** the entry - please note that in this case, the original team code and matching score MUST be followed by a single 'X'.

A second acknowledgement text is posted to confirm the deletion - and a new, corrected entry may then be resubmitted. Any message received with an invalid format will be logged and ignored - e.g. **Mrha** is **INVALID**.

An error response may be posted in the following circumstances:-

If a correctly formatted submission is made with an incorrect team code

If a correct code is supplied but that side has no corresponding HOME game on that date.

An error response will have a numeric count associated with it - and if the count reaches 5 at any point in the season, then that mobile will be **BANNED** - and no further messages will be accepted, acknowledged or actioned. For this season, results entered by Text Messaging will be entered on the formal results system and will update league tables - to then be confirmed by your Divisional Administrator from the paper match returns. The system will be monitored for use and abuse - and any offending mobile may/will be blocked/banned, from making further submissions for that season.

Send result to
+44 7860 020620

This is a dedicated MRHA Results line. Texts to this number will be charged as per a single text message from your normal network provider. Not all messages received will get a reply. No other correspondence please.
